**Series: The Way, Living like a Saint**

It is that time of year we all love; the leaves are changing, the weather is crisp and cool, the kids are picking and carving pumpkins. And it's time to talk church finances!!!! It may also be that time of year we like to avoid or turn the radio station when the giving campaign comes on. That's right; the money talk. But what if this year, when we talk about stewardship, we talk about it with the saints? What if we look back to our shared church history to some faith leaders who patterned their life in such a way that their gratitude, generosity, and joy simply overflowed? What can they teach us today about our own generosity?

Join us for this October as we celebrate the witness of the saints and discover how a few we may not know lived their lives with joyful obedience and generosity. And may we be inspired to "go and do likewise."

**Message description:**

St. Francis of Assisi is a well-known saint of the church. Born into affluence, he renounced his family and inheritance and took a vow of poverty in order to serve the poor and the church. He later founded the Franciscan order of like-minded friars and become known for his compassion, care for lepers, and his care for all of creation. *He found a way to give of himself for the glory of God through a way of poverty and surrender.* But it wasn't just about giving up his money or possessions; like the rich young man, it was about the condition of the heart. It is not money or possessions that is the issue, but our attachment to them. Greed is a condition of the heart that keeps us from responding to the needs of our neighbors and realizing our deep need for God. And the best antidote to greed is generosity. How can you surrender in your financial life to grow in your trust in God to provide and to grow in your love for your neighbor?

**Key Scriptures**

*Mark 10:19-22; Luke 11:37-41*
